|---------------------------------|------------------|------------------|--------------------|--------------------|-------------|-------------------------|----------|---|
| Direct Services Trading account | -396 | -196 | 247 | 643 | 100 | 100 | | There is currently an overspend on agency staff in this area, which is partially offset by salary underspends. A project team has now bought forward a recruitment drive to reduce this, which came into effect from November 2021. Although some agency use is required in order to maintain service levels to cover the extra team and vehicle required to deal with the huge increase on collected weights, as well as leave and sickness. It is anticipated that the budget can be brought down by offsetting the current staff vacancies. There is ongoing work on estimation for commercial income at the depot, initial focus has been undertaken on commercial waste. This will enable a greater focus on building up new customers later in the year. It is currently anticipated with the work carried out by the Commercial Operations and Trading Manager and team that there will be a shortfall in income targets of around £100,000. Due to the ageing fleet and delayed replacement of vehicles there have been breakdowns resulting in additional hire costs to maintain the service. The forecast for this is an overspend for £100,000. As the pressures build on services due to the pandemic this situation may change, but will be kept under review. |
