

## APPENDIX E

Proposed off license at 31 AZALEA DRIVE, SWANLEY KENT BR88HS

Dear sirs,. My husband Charles and myself, Linda McAllister both wish to put forward our reasons for not going ahead with the proposed off license at the address above.

We live in the apartment block, [REDACTED] right near the proposed property.

Firstly. The noise outside the shop will be horrendous. We already have issues with noise outside the block because of Londis being there. Can you imagine the noise level once groups have met up and shelter under our front entrance.

You can bet if a resident was to call out to people who are very noisy outside,. He or she would get verbal abuse or worse. Maybe a bottled through the window.

The fact that Londis sell alcohol is bad enough. We are regularly littered with crisp packets, cans, bottles and other rubbish outside our main entrance.

Our gardens to the front of the building are often used for people throwing their discarded alcohol bottles, cans etc into.

This is most unfair on our maintenance man who finds many items when he does a litter pick.

We both firmly agree that this would be a bad thing to have on our doorstep.

We had a lovely chemist there until January this year. It closed down. All the local community were in shock when this happened, especially the elderly and vulnerable.

Then up pops an application for an off license.

Utterly unacceptable.

Kind regards.

Linda and Charles McAllister
