

APPENDIX C

We live in a quiet rural area and therefore I object to this application on the basis of noise generation from a roaming bar/eatery which could be anywhere over a very large area - some 160 acres. Given the prevailing wind direction the noise from a bar would readily travel towards the residents of Hill Hoath Road at anytime of the day or night. I would not object if it was based at Lockskinners Farm albeit that we already have a large range of pubs in area - The Castle at Chiddingstone being very close by to the subject property.

We already have occasional noise disturbance from Chiddingstone Castle and Gatwick air traffic so this would be an unwelcome addition.

Mr Sam Kirkaldy
